KEEP IT FRESH!

These air- and watertight food storage containers are constructed from high-quality sanitary grade #304 stainless steel - the material of choice among the food processing, dairy and brew-ery industries.

Sauces, stews, yogurt . . . tote any kind of messy food around without the risk of leakage. Perfect for storing leftovers and then bringing them to work as lunch. Four convenient sizes that will fit a child's lunchbox. Lightweight and durable, handy and safe - what more could you want!

CARE

Dishwasher-safe. The bottoms are re-heatable on the stove-top or in the oven. Because the lid has a silicone seal, we recommend not washing this part of the container in the dishwasher nor re-heating it in the oven.

ORIGINS

Made in Korea.

HOT MEAL CONTAINER

Stainless Steel

A-SSPP-THERMAL-500

HOT MEAL CONTAINER
9 cm h. X 12 cm di.
(3 1/2 in. h. X 5 in. di.)
Weight: 0.41 kg (1.1 lbs)
Volume: 500 ml (17 fl.oz.)

HOT LUNCHES ON THE GO!

Keep your food hot and plastic-free on the go with this stainless steel hot meal container. Its rare to find a thermal food container with a lid made of stainless steel instead of plastic. This is a healthy, earth-friendly and food-safe product brought to you by Sanctus Mundo. Vacuum seal, watertight.

Made of high grade #304 stainless steel and polypropylene grips on the outside. The lid has a stainless steel interior and a silicone seal.

CARE

Wash before first use. Not recommended for dish washer or microwave use.

ORIGINS

Made in Taiwan.

(6 1/4 in. X 5 in. X 2 in.)
Weight: 0.32kg (11.3 oz.)

LUNCHES ON THE GO!

Do away with plastic containers and rest assured that your food is contaminant-free with these #304 grade stainless steel alternatives. They are lightweight yet durable. Re-heat your food on the stove-top using the “Round Tote” with its convenient fold-out handle and high quality pot.

The oval containers, 16 cm in size, also can be used to heat up a meal in the oven or toaster-oven. An ideal size and shape for use as lunch boxes to carry sandwiches and other items. They are not airtight.

Made of high grade #304 stainless steel.

CARE
Dishwasher safe, stove-top and oven safe. (n.b. oval containers must be handled with the proper hand protection when heated).

ORIGINS
Made in Thailand.

2-TIER TIFFIN
26cm X 15cm dia.
(7 1/2 in. X 6 in. dia.)
Weight: 0.91kg (24.7 oz.)

PACK, STACK 'N SNACK!

These layered stainless steel lunch boxes have been used for generations in Asia to transport various types of food to school or to work. Each compartment can be reheated separately or used as a bowl.

Tiffins work well for carrying salads, pasta, sandwiches, fruit - anything as long as the content is not too liquidy (unless you make sure it doesn't tip over).

The mini tiffin is an especially cute little lunchbox that school kids will love toting around.

Made of high grade #304 stainless steel.

CARE

Dishwasher, stove-top and oven safe.

ORIGINS

Made in Thailand.

KIDS WANT TO HAVE FUN!

...and parents want to enjoy
mealtime with their kids without
stressing over leachable toxins
present in many mainstream
products intended for childrens
use.

These unique and funky children's
dishes feature a stainless steel
interior made of #304 high quality
stainless steel. The outside is
made of either durable acrylo-
nitrile styrene plastic (safe #7) or
polypropylene (safe #5), both of
which never come in contact with
any food or drink. These are
plastics that are considered
stable and have no known asso-
ciated health risks.

Kids will love the fun colours and
the friendly animal designs.

CARE

Hand wash only.

ORIGINS

Made in Thailand.

EVENFLO® Glass Baby Bottles

C-EVENFLO-240-S
240 ml GLASS BABY BOTTLE
w/ silicone nipple

*With
silicone
nipple*

C-EVENFLO-NIP-FF
Package of 2 fast flow
silicone nipples

...BACK TO GLASS, BABY!

Glass baby bottles are experiencing a resurgence in popularity due to recent studies surrounding the dangers of polycarbonate bottles, in particular the leaching of the hormone disruptor bisphenol-A (BPA). Babies and toddlers are especially at risk as the amount of toxin ingested is significant compared to their body weight, and because their developing organs are most vulnerable. The Evenflo® Sensitive Response™ Clear Glass Bottles are designed with Micro Air Vents™ that let baby get an even flow of liquid and help keep air from entering baby's tummy. The side of the bottles have convenient markings which allow easy measurement in ounces and milliliters. The white plastic nipple cover helps keep the nipple clean for travel.

CARE

Bottle and its components can be sterilized in boiling water. Glass bottom dishwasher safe. Not recommended for microwave use.

ORIGINS

Manufactured in Mexico by Evenflo®.

THE PLASTIC DILEMMA

The widespread use of plastic is causing unprecedented environmental problems and harbours serious health risks -- especially for children, whose immune and organ systems are developing and most vulnerable. Evidence is growing that chemicals leached from plastics used in cooking and food/drink storage are harmful to human health. The most disturbing of these are hormone (endocrine) disruptors, such as bisphenol-A (BPA) which, according to established, peer-reviewed scientific journals, can stimulate cancer cell growth, cause genetic damage, and has been linked to miscarriage in women.

Most plastics are made from petroleum, a non-renewable resource extracted and processed using energy-intensive techniques that destroy fragile ecosystems.

Plastic packaging - especially the ubiquitous plastic bag - is an enormous source of environmental pollution and landfill waste and is regularly eaten by marine and land animals, to fatal consequences.
